REMARKS

Amendments to the Specification

The specification has been amended to fully identify the Haber, et al. reference.

Drawings

Figure 5 has been replaced with new Figure 5. Figure 5 has been amended to switch the markers associated with the test meal of the present invention to that of WO 97/02050. Example 4 says that the mean blood glucose following ingestion of the test bar of the present invention was significantly greater than that resulting from the Wolevar bar. Therefore, the amendment is inferable from the application as filed.

It is submitted that none of the above amendments are new matter and their entry is requested.
